

## Dress code

### Business tropical

### Womans

Women can choose from a variety of options that combine formality with freshness. Lightweight, flowing dresses made from breathable fabrics are an excellent choice, especially those adorned with subtle floral or tropical prints. For those who prefer two-piece outfits with pants, palazzo pants, wide-leg pants, or chinos in different colors, whether solid tones or prints, are favorable options. These can be paired with elegant blouses or tops for a look that is both professional and comfortable. When it comes to footwear, comfortable yet elegant options are recommended, such as flat or low-heeled sandals,

ballet flats, or dress shoes. Accessories are optional and can add a touch of personality and unique style to your outfit.

### Mens

Men can opt for options that combine formality and freshness. For example, light suits in light shades such as beige, light gray, or pastel blue are an excellent choice to reflect the tropical atmosphere without losing elegance. They can be accompanied by button-down or polo shirts in solid colors. Wearing a jacket is optional; if you prefer to wear one, make sure it is made of a thin material. As an accessory of your choice, you can wear a colored handkerchief in your jacket or a matching belt. As for footwear, options that are both comfortable and elegant are recommended. For example, loafers, dress shoes, formal tennis shoes, or nautical-style shoes in neutral tones.
