INNOVATION

REALISM

INTEGRITY

EXPLORATION

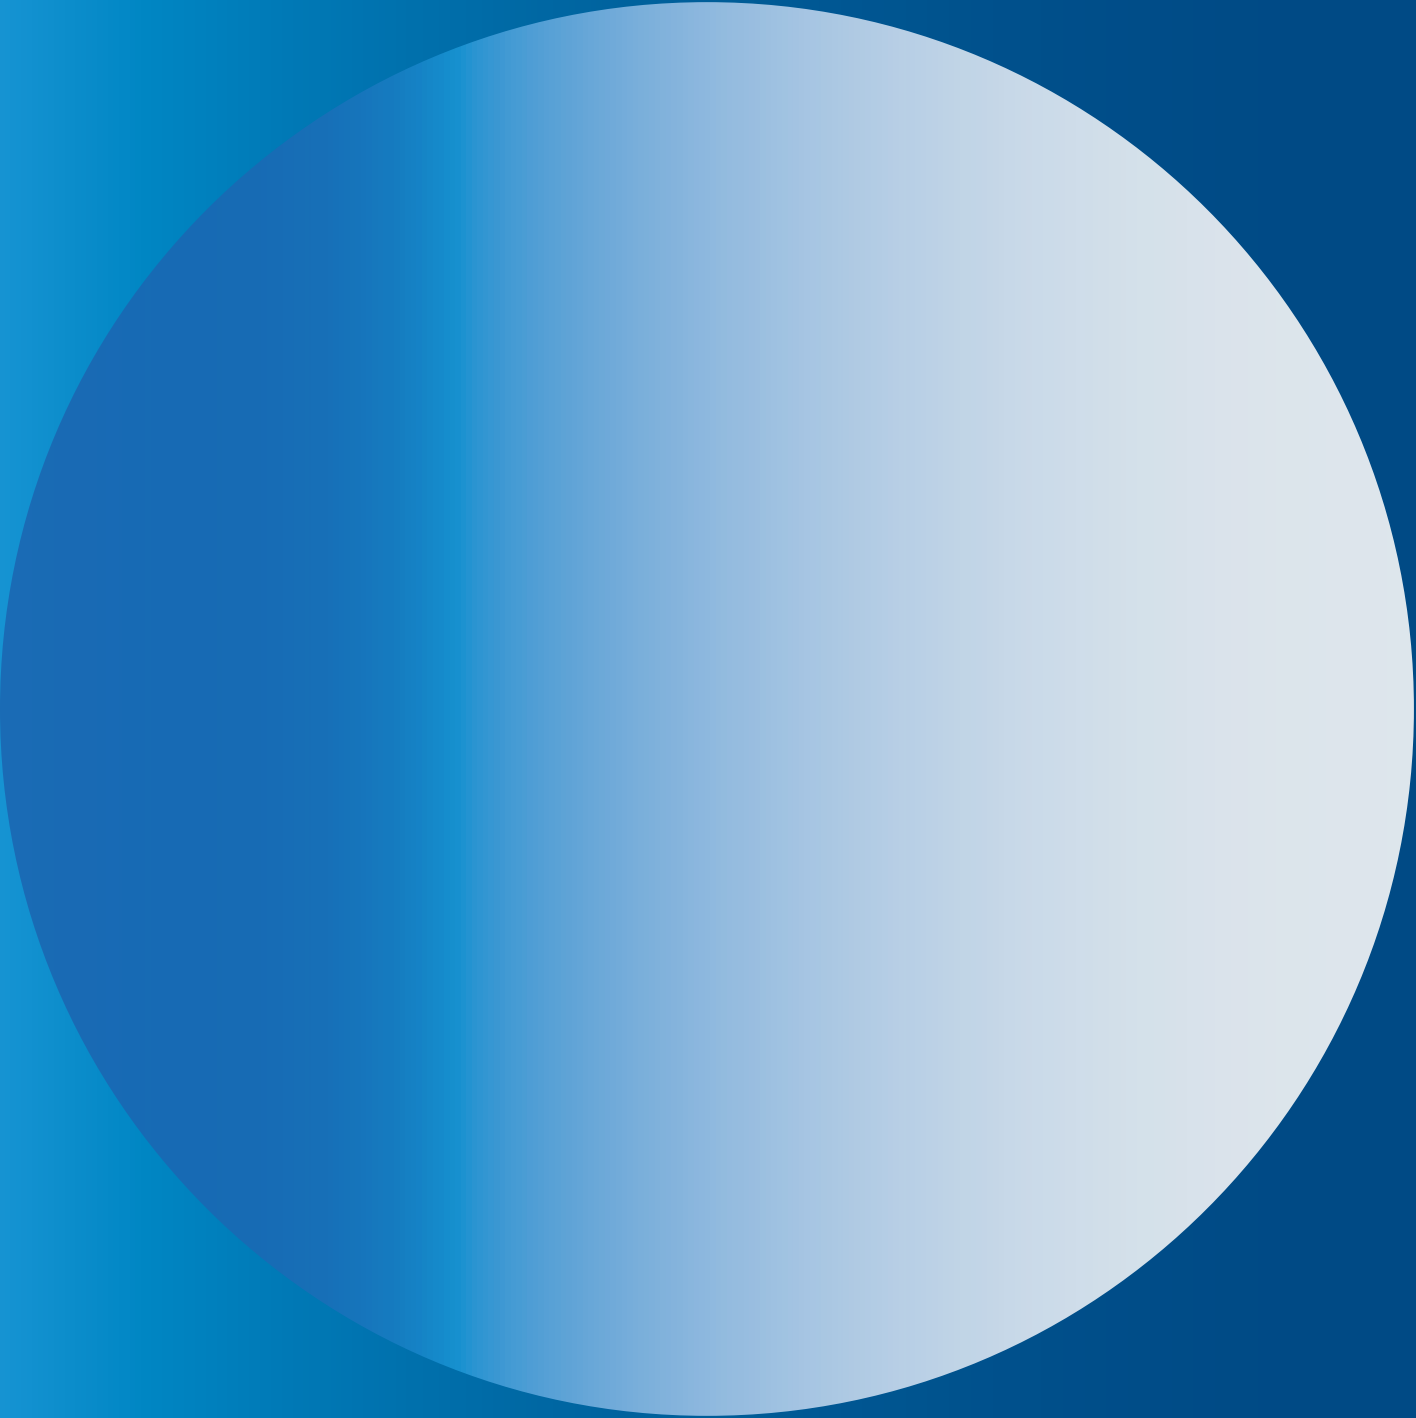

ANKE has stood out as a trailblazer and pioneer in the Chinese medical imaging industry since 1986

As a leader in the field, ANKE has focus on the development, production, sales, and after-service of various medical imaging products, including CT, MRI, radiography equipment, and minimally invasive devices

ANKE has consistently ranked in the top 3 in terms of export sales volume over the last six years

COMPANY OVERVIEW

CORE VALUES

CORE VALUES

Humanity-based
Quality ensures future success
Customer-oriented
Cooperation creates value

VISION

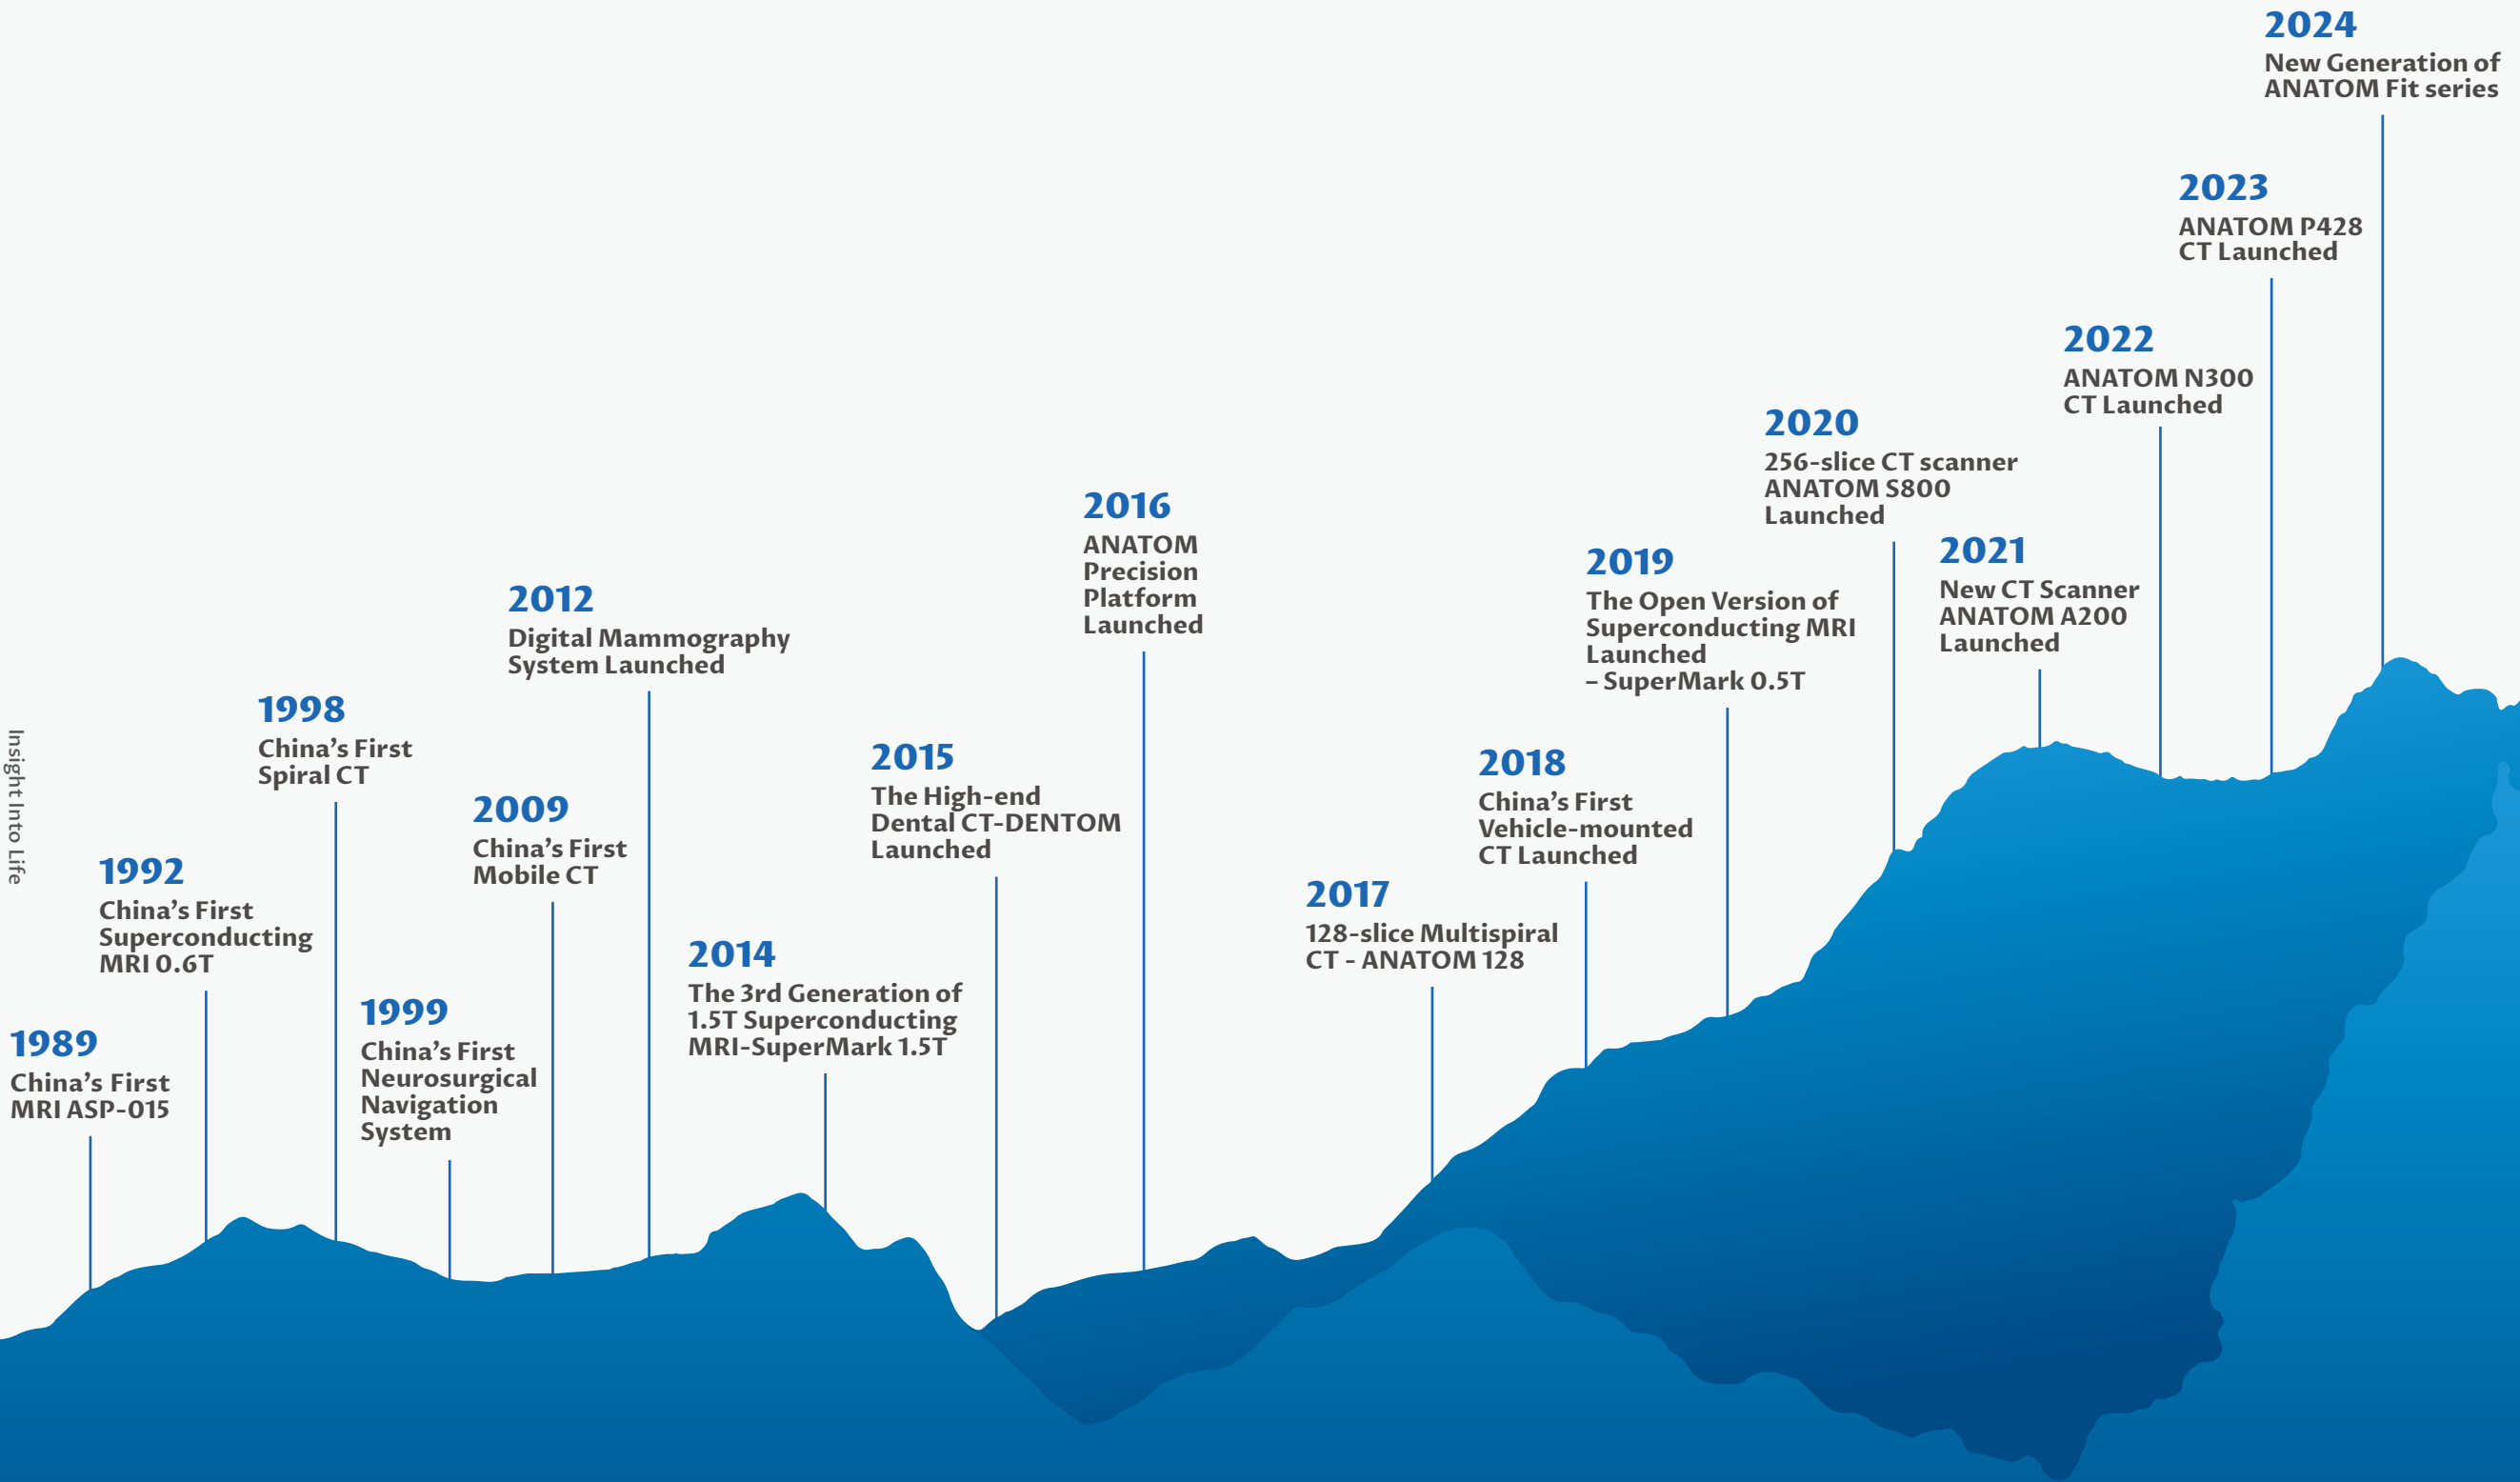

Becomes a world-class enterprise
in the medical imaging industry

MISSION

Committed to providing excellent
medical imaging equipment
solutions and high-quality service

X-Ray Series

Injectors

Comprehensive Healthy Solution

SuperMark 1.5T @ART platform

A High Performance Magnet MRI System

ART platform for accurate whole body imaging
CS acceleration for daily optimized productivity

SuperMark 1.5T @WBM platform

A Wide Bore Magnet MRI System

Superior magnet system with 70cm diameter
Streamlined workflow experience by AiTO engine
Swift intelligent platform based on Ai technology

SuperMark 1.5T @HFM platform

A Helium-free Magnet MRI System

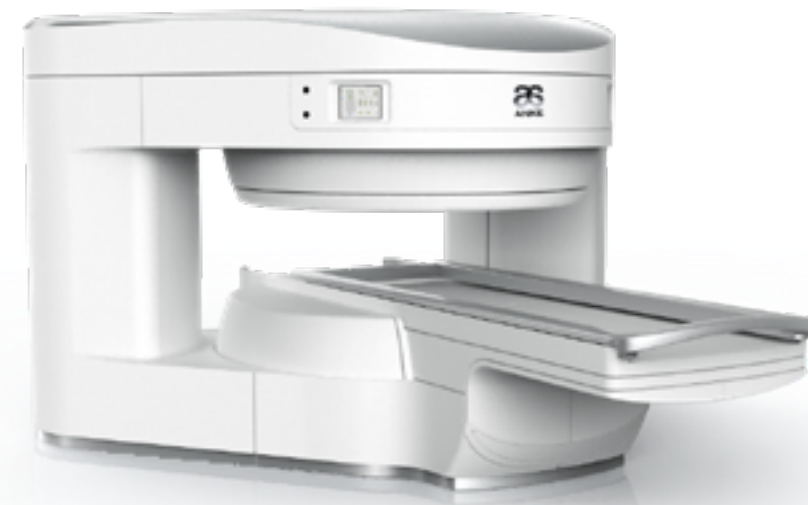

Free your aspiration with latest SO-COOL technology
Free your workflow with Deep Series technology

OPENMARK III & 4000

An affordable MRI Imaging Platform

Intelligent hardware design for minimal operating costs
Innovative operation workflow for better scan experience
Impressive clinical solution for confident disease diagnosis

OPENMARK 5000

A New Generation Imaging Platform

Adaptive hardware system for superior image quality
Awesome AI technology for streamlined exam experience
Abundant clinical application for covering complex disease

ANATOM S800 (256-slice)

See the Unlimited
See the Unseen

76 cm large aperture, dealing with more positioning challenges
Smart workflow, from positioning to analysis, maximizes efficiency
100 kW HV generator ensures precise imaging for complex anatomies
0.256 s rotation speed and 8 cm detector unlock a new experience in cardiac imaging
Intelligent platform and comprehensive clinical analysis, boosting diagnostic confidence

ANATOM S400 (128-slice)

See the Unlimited
See the Unseen

76 cm large aperture, dealing with more positioning challenges
Smart workflow, from positioning to analysis, maximizes efficiency
0.286 s ultra-fast rotation speed, ideal for arrhythmias with high heart rates
7.5 MHU tube and 80 kW generator deliver precise imaging for complex anatomies
Advanced platform for intelligent, efficient analysis, boosting diagnostic confidence

ANATOM P428 (128-slice)

Precision in Every Step
Precision in Every Day

Prioritize dose care to enhance the scanning experience
25 MHU LMB tube, empowered reliability, efficiency, and longevity
Sky-eye and Eagle-eye elevate precision with streamlined workflow
0.33 s rotation speed and 40 mm detector take cardiac imaging to a new heights
Comprehensive applications for precise diagnosis from structural to functional lesions

ANATOM Precision (128-slice)

A Giant Leap for Precision

- 0.37 s rotation speed, reducing more motion artifacts
- Dual-tilt mode adapts to various scanning needs with flexibility
- 8 MHU tube, ensuring stable scanning for high patient throughput
- 40 mm detector, effortlessly tackling large-area scanning challenges
- Smart de-noising technology delivers lower dose and higher image quality

ANATOM 64 Clarity (64-slice)

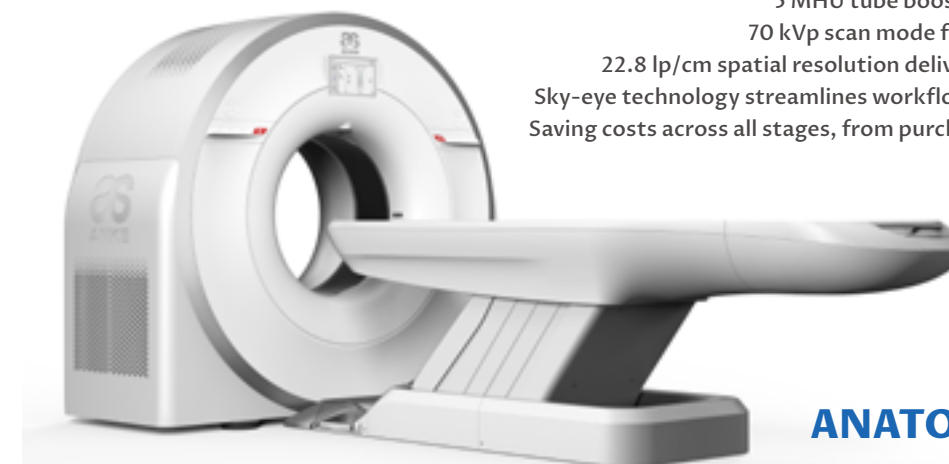

Bring More Than Clarity

- AccuSaving technology promotes cost-friendly efficiency
- Dual-tilt mode adapts to various scanning needs with flexibility
- 0.5 s rotation speed, your entry-level cardiac diagnosis assistant
- 5.3 MHU tube and 50kW HV generator ready for all-day operation
- Clarity workflow ensures precise detection and auto-correction throughout scanning

ANATOM C210 (64-slice)

Care at Every Detail, Every Moment

- 5 MHU tube boosts daily patient throughput
- 70 kVp scan mode for unparalleled patient care
- 22.8 lp/cm spatial resolution delivers high-definition imaging
- Sky-eye technology streamlines workflow and maximizes efficiency
- Saving costs across all stages, from purchasing to after-sales service

ANATOM C200/C201 (32-slice)

Care at Every Detail, Every Moment

- A true 32-row, 32-slice CT for crystal-clear imaging
- 3.5 MHU tube meets all your daily diagnostic needs
- Sky-eye technology streamlines workflow and maximizes efficiency
- Cost-effective, controlling expenses at every stage, enhancing profitability
- 72 cm aperture and $\pm 50^\circ$ tilt accommodate diverse patient body sizes with ease

ANATOM A200 (32-slice)

Aiming for Accurate and Attentive Imaging

- 1024×1024 matrix unveils fine anatomical details
- AccuSaving technology promotes cost-friendly efficiency
- OptiWave™ detector delivers ultra-high-resolution images
- 70 cm aperture and $\pm 50^\circ$ tilt accommodate diverse patient body sizes with ease

VET Series

OPENMARK VET One-Stop Clinical Solution

- Intelligent examination workstation
- Complete set of dedicated coils
- Comprehensive clinical imaging suites
- Advanced clinical application options
- Easy-to-use post-processing function

Insight Into Life

ANATOM V200/ V210 (32/64-slice)

Premium Care for Our Companion

- Customized UI simplifies veterinary operations and workflow
- Professional scanning protocols cover all common pet companions
- AccuSaving technology significantly promotes cost-friendly efficiency
- Durable platform delivers exceptional image quality and boosts throughput

X-ray Series

Mammography System ASR-4000E

Endless Vision, Boundless Care

- High-end hardware component
- Multi-configuration available for your options
- L-Dose dose optimization technology
- I-Pose intelligent positioning technology
- F-Comp flexible compression technology
- E-View excellent working platform

Insight Into Life

Digital Radiography System ASR-6850P

Your Best and Reliable Partner of DR

- Various configurations available for your needs
- Mobile multi-functional FPD fulfills different clinical scenarios
- Integrated four-way floating patient table
- Intelligent LCD touch screen for byside parameter settings
- Whole spine scan applicable as an option for special need
- Professional and abundant protocols for different cases

Injectors Series

ASA-300

Dual Syringe CT Enhancement Injector

Large touch screen for easy and convenient usage
 A variety of input and output methods compatible to link with a variety of imaging equipment
 Automatic sound and light alarms indicate the pressure limit while stopping the injection
 The real-time indicator flashes to remind the injection process

ASA-200E

Single Syringe CT Enhancement Injector

New control platform, stable performance & friendly interface
 100 sets of storable injection programs
 The double-operation working platform makes the scanning room and the operation room integrated
 "Air-exhausted confirmation" button to ensure safe injection

ASR-4000T

Mammography - 3D Breast Tomosynthesis

ANARAY S880/S860

Ceiling-mounted Digital Radiography

ANARAY D660/D650

Floor-mounted Digital Radiography
